MRM//McCann Buenos Aires

Web Developer

2012 - enero de 2021 (9 años)

- Collaborated with UX team to outline the behavior of AEM components and desing packages

focusing on reusability and maintainability across different experiences.

- Created AEM components using Handlebars + Less + JavaScript.

- Created front-end architecture solutions to be able to modularize JavaScript functionality

allowing multiple developers to work on the same feature simultaneously.

- Presented solutions and demos directly to our clients.

- Created technical documentation and trained less experienced developers.

- Created an R+D team within the company to explore innovative technologies and methodologies to improve our services for our clients.

- Participated in several in house tech courses for junior developers as a teacher and mentor.
- Designed and built landing pages and microsites using a variety of HTML/CSS/JS frameworks.
- Daily code maintenance, improvement and debugging.
